Next Environment Planning Committee Meeting:
October 25, 2022 at 11:00 am via Microsoft Teams

Project Review Summary Sheet

Environment Committee

Date: September 2022

Project	Municipality	Statement of Purpose	LVPC Comment
Residual Waste Permit Modification Application (Act 97 Review)	Wilson Borough	Flaw Inc (d/b/a Recycle Oil Company) operates existing waste oil collection, processing and recycle for resale facility at 1600 South 25 th Street. Applicant proposes to increase waste storage capacity from 100,000 gallons to 140,000 gallons. No other changes proposed with this application.	Permit modification aligns with <i>FutureLV: The Regional Plan</i> action to: “provide environmentally responsible and economical solid, electronic and hazardous waste disposal and recycling” (under Policy 3.2). PA Department of Environmental Protection performs technical review of application.
Municipal Waste Permit Modification Application (Act 97 Review)	Lower Saucon Township	Bethlehem Landfill Company operates 206-acre landfill located at 2335 Applebutter Road. Applicant proposes to expand landfill (Northern Realignment project) entirely within footprint of previously permitted property line and facility limits, increasing landfill life by about 3.2 years. Landfill will be expanded overtop about 37 acres of existing fill area and laterally over about 4 acres of new disposal area previously approved for support activities. No change in permitted daily tonnage proposed.	Permit modification aligns with <i>FutureLV: The Regional Plan</i> action to: “provide environmentally responsible and economical solid, electronic and hazardous waste disposal and recycling” (under Policy 3.2). LVPC land development review 9/9/20 found project generally consistent with FutureLV. PA Department of Environmental Protection performs technical review of application.
