PLAN PROGRESS UPDATE

Jill Seitz and Matt Assad provide an overview of the plan development progress, including an outline of the document's content. Each of the plan's six goals will consist of its own chapter and include an introduction, policies and actions. Supporting data as well as issues and opportunities collected from public engagement will also be included in each chapter, and some goals will include Special Sections that highlight especially pertinent topics and strategies. The plan will detail the planning process and the extensive public engagement efforts by the River Central communities.

PROJECT SCHEDULE STATUS

Jill Seitz reviews the project schedule status, and notes that it will take LVPC staff some time to complete drafting the plan content and layout. The Committee agrees to adjourn for the summer, with meetings to resume in September with the plan largely drafted.
